

Teams webhook requests for Mezmo Alerts

Mezmo Webhook configuration

Content-Type: application/json

```
{
  "title": "Mezmo - User account alert",
  "summary": "{{ matches }} line(s) matched in {{ name }}",
  "view": "{{ name }}",
  "matches": "{{ matches }}",
  "line": "{{ line }}",
  "lines": "{{ lines }}",
  "level": "{{ level }}",
  "url": "{{ url }}",
  "query": "{{ query }}",
  "app": "{{ app }}",
  "host": "{{ host }}",
  "tag": "{{ tag }}"
}
```

Teams Workflow

Using the default Teams Workflow that was created failed because evidently the suggested content from Mezmo wasn't correct. I'm sure there's a way to craft the message properly straight from the Mezmo configuration so you can use the default Teams Workflow, but I haven't figured it out yet.

Instead, I went down the path of customizing the workflow in Power Automate and leveraging Compose to create the card I wanted (or at least as close as I've been able to get so far) with the data I'm sending from Mezmo via the Webhook.

Power Automate Workflow Edit

The screenshot below is the basic workflow.

Compose: createCard

JSON Parameters

```
{
  "$schema": "http://adaptivecards.io/schemas/adaptive-card.json",
  "version": "1.4",
  "type": "AdaptiveCard",
  "body": [
    {
      "type": "TextBlock",
      "size": "Medium",
      "weight": "Bolder",
      "id": "Title",

```

```
"text": "@{triggerBody()?['title']}"
},
{
  "type": "FactSet",
  "facts": [
    {
      "title": "Summary",
      "value": "@{triggerBody()?['summary']}"
    },
    {
      "title": "View",
      "value": "@{triggerBody()?['view']}"
    },
    {
      "title": "Host",
      "value": "@{triggerBody()?['host']}"
    },
    {
      "title": "Query",
      "value": "@{triggerBody()?['query']}"
    },
    {
      "title": "Severity",
      "value": "@{triggerBody()?['level']}"
    }
  ]
},
{
  "type": "TextBlock",
  "id": "Line",
  "text": "Line: @{triggerBody()?['line']}",
  "wrap": true
},
{
  "type": "Container",
  "items": [
    {
      "type": "TextBlock",
      "text": "Click to see all lines",
      "weight": "Bolder",
```

```

    "size": "Medium",
    "color": "Accent"
  },
  {
    "type": "ActionSet",
    "actions": [
      {
        "type": "Action.ToggleVisibility",
        "title": "Show Details",
        "targetElements": [
          "AllLinesExpanded"
        ]
      }
    ]
  },
  {
    "type": "Container",
    "id": "AllLinesExpanded",
    "isVisible": false,
    "items": [
      {
        "type": "TextBlock",
        "text": "@{triggerBody()?['lines']}",
        "wrap": true
      }
    ]
  }
],
{
  "type": "TextBlock",
  "id": "URL",
  "text": "[Link to logs](@{triggerBody()?['url']})",
  "wrap": true
}
]
}

```

Resulting Teams Card

via Workflows 3:55 PM

Mezmo - User account alert

Summary: 1 line(s) matched in Test View. Security level: info

View Test View

Host Test View

Query Test View

Line: After matching at least 1 line in a 30 second period, we'll send an alert to this email with all the matched lines

[Click to see all lines](#)

Show Details

[Link to logs](#)

-end
