

Useful additions

Packages to add

```
apt install lldpd snmpd
```

snmpd.conf

Minimal configuration for `/etc/snmp/snmpd.conf` to enable monitoring physical host resources via snmp.

```
# file:/etc/snmp/snmpd.conf
sysLocation    Undisclosed location
sysContact     Ghostbusters! <ghost@busters.loc>
sysServices    72

# master agentx
agentaddress   udp:161

rocommunity    localmon 10.0.0.0/8
rocommunity    localmon 172.16.0.0/12
rocommunity    localmon 192.168.0.0/16
#rocommunity6  localmon fe80::/10

includeDir    /etc/snmp/snmpd.conf.d
```

```
cp /etc/snmp/snmpd.conf /etc/snmp/snmpd.backup.conf

cat << EOF > /etc/snmp/snmpd.conf
# file:/etc/snmp/snmpd.conf
sysLocation    Undisclosed location
sysContact     Ghostbusters! <ghost@busters.loc>
sysServices    72
```

```
# master agentx
agentaddress udp:161

rocommunity localmon 10.0.0.0/8
rocommunity localmon 172.16.0.0/12
rocommunity localmon 192.168.0.0/16
#rocommunity6 localmon fe80::/10

includeDir /etc/snmp/snmpd.conf.d
EOF
```

-end
